PORTRAIT BRACKET

BR-XV90

A wall-mount bracket for mounting the FC-X and FC-XFP detectors at 90 degrees to their standard orientation.

Features

When designing a fire detection system using Ciqurix Video Fire Detection, using the BR-XV90 allows the standard aspect ratio (16:9) to be reversed (9:16). This will optimise detection coverage in narrow aisles and similar situations.

Part code:	BR-XV90
Finish (arm):	Powder coated
Finish (plate):	Black anodised
Weight (nett):	0.83kg
Weight (gross):	1.18kg
Vertical tilt:	65° down, 5° up
Material:	Aluminium alloy

For use with

FC-X-104
FC-X-106
FC-XFP-104
FC-XFP-106
